

PROJECT LOGISTICS BEYOND DIMENSIONS

www.sarjak.com

ABOUT US

Founded in 2003 in Mumbai, Sarjak Container Lines initially carved out a niche in oversized and out-of-gauge (ODC/OOG) cargo transport. As India's infrastructure and economy expanded, Sarjak Container Lines responded to the increased demand for efficient ODC/OOG shipping solutions. Innovating with flat racks and open-top containers, we revolutionised the industry, improving transit times and vessel efficiency.

Our dedication to project logistics excellence spurred rapid growth, evidenced by our specialised fleet. Strategic investments in advanced vessels and an expansion into heavylift and breakbulk services have established us as leaders in end-to-end project logistics, including vessel owning and chartering.

Evolving from a small family business, Sarjak Container Lines has become a global powerhouse, powered by over 300 "SARJAKites" and an extensive network in 84 countries, covering 275+ ports. Leveraging cutting-edge technology, we guarantee unparalleled service worldwide.

OUR VISION

To be the unmatched leader in
providing digitally enabled

**Innovative,
Customer-Centric
Solutions for
Project Cargo
Logistics.**

OUR MISSION

01

Customer Centricity

We are committed to providing our customers with the best possible experience by placing them at the core of all our efforts.

02
